ACC SIP TRUNKS
GEO-REDUNDANT VOICE OVER IP

Businesses today need technology solutions that help improve communications, while driving productivity across the enterprise. They also want a reliable, high quality voice service that delivers business continuity in the face of a system or network disaster.

Today, transferring your phone service and phone numbers are simple and cost effective, regardless of your business—whether you have five employees or fifty. Our SIP Trunking solution provides business-class Voice over IP (VoIP) service that adapts to your needs, seamlessly working the way you need it to. That way, you can focus on your business, not your communications solution.

With ACC Telecom, you'll get phone service that:

- Provides high quality, reliable voice calls
- Provides Business Continuity features such as Geo-Redundancy & Disaster Recovery
- Costs less than traditional phone lines
- Provides the flexibility to scale up or down as your needs change
- Includes Call Reporting & Monitoring features

You'll be able to leverage powerful features and benefits including:

- Geo Redundancy & Automatic Disaster Recovery
- Enterprise-level call routing options
- Features such as Conference Bridging and One-Number-Follow-Me
- Unlimited Nationwide Calling including Canada & Puerto Rico

What is SIP Trunking?

SIP Trunks are a business-class form of Voice over IP (VoIP) service that utilizes a Broadband connection and your IP phone system for access. Session Initiation Protocol (SIP) has become the common signaling standard for real-time business communications. As a SIP Trunk provider, SIP allows us to packetize and prioritize voice traffic over digital circuits, offering higher quality and more reliability than standard VoIP service.

SIP is typically more cost effective and scalable than traditional phone service alternatives. You and your team can work from the office, home, on the road, or through your smartphone, all while utilizing your company's communications solution to help maintain and uplift your image and brand.

Today, with SIP technology your choices are much more dynamic and offer a host of solutions and features tailored for each individual company.

How to Switch

Interested in switching to ACC Telecom? Call 888-226-2216 to receive a customized quote detailing the benefits of utilizing our innovative products and services. When you're ready, we'll install your new phone service with ZERO downtime, so you can get back to business.
